

PERMIT TERM R

Title: Measuring Devices – Direct Diversion

When Used: For direct diversion when a formal record of the quantity of water diverted is desired.

Term:

Permittee shall install and maintain devices satisfactory to the State Water Resources Control Board to measure (the instantaneous rate of diversion and cumulative quantity of water diverted under this permit)^a. (the daily quantity of water diverted under this permit)^b. A record of such measurements shall be maintained by the permittee, and made available to interested parties upon reasonable request. (A copy of the records shall be submitted to the State Water Resources Control Board with the annual “Progress Report by Permittee”)^c.

Permittee shall allow (name of party), or a designated representative, reasonable access to measuring devices for the purpose of verifying measurement readings.

- a) for direct diversion in cubic feet per second or gallons per minute.
- b) for direct diversion in gallons per day.
- c) Use when it is anticipated that the measurement records will definitely be needed by the Board.
